Vice President's Corner:

This is the time of year when we start huddling in our garages and planning our winter projects and deciding on what we want to show off in the spring. If anyone has started a project and has photographs or even a few notes about what they are working on, please forward them to me and I will build a short article for the January newsletter. Of course, if your project is intended to be a surprise, I understand and respect that as well. I am hoping to get strut bars installed on the SRT-4 before the St. Patrick's Day show which will most likely be the extent of my car project this winter. Once I get started, I intend to document it and write a short tale regarding the experience for a future newsletter.
